Re: BCMEA – COVID-19 Update

BCMEA continues to monitor developments and updates relating to COVID-19 and its potential impact on the province's waterfront industry. The Association continues its commitment to prioritize the health and safety of our waterfront workforce, while simultaneously ensuring that cargo continues to flow at BC's ports.

On April 22, 2020, the Provincial Health Officer stated that they continue to see new outbreaks across BC. The province emphasized that it is continuing to take a consistent, systematic and holistic approach to prevention and containment and is urging every individual, business and community to do the same.

All of us need to continue to remain vigilant and do our part. If you are feeling ill, please stay home and if necessary contact your healthcare provider or call 811 for assistance.

Please post the attached information poster at your terminals.

The COVID-19 situation continues to unfold and BCMEA continues to get the most accurate information as it becomes available. For reference purposes, attached below is a web link with a tremendous amount of fact based information around COVID-19 including tips on prevention.
